ABOUT US

Manufacturer and supplier of high-quality diesel generators, including our own Target Power brand and top brands like Ferbo, CAT™ and Pramac, with competitive pricing and customisable solutions.

- Target Power Generators
- Largest Ferbo Stockist
- Pramac Tier 1 Dealer
- CAT™ Power Partner

Ferbo S.R.L. is the largest independent generator manufacturer in Europe, with a **turnover exceeding €200M** and a product range from 6kVA to 3000kVA, fully designed and **manufactured in Italy.**

PRIME ADVANCED SERIES

The Prime Advanced Series is specifically designed and **manufactured for the UK and Europe** for Target Power. It is available from **6kVA to 600kVA.**

Available with Perkins, Iveco, Baudouin, Scania, and Yanmar engines.

Fully bunded base fuel tanks with six-way valves.

Robust and compact canopies with low noise levels.

Ideal for **agriculture, construction,** and industrial applications. Equipped with a standby pack, sockets (0-150kva), AMF module, & coolant heater.

SELECT STANDBY SERIES

The Select Standby Series is available from **6kVA to 3000kVA**, ideal for business backup and industrial standby applications.

Available with Perkins, Iveco, Baudouin, Scania, and Yanmar engines.

Robust and compact canopies with low noise levels.

The range includes a standby pack, AMF module, and coolant heater.

'Target Is the largest stockist of Ferbo Diesel Generators in Europe.'

CAT™ PREMIUM DIESEL GENERATORS

CAT GC & E0 Series Generators

The CAT GC Series (33kVA–715kVA) provides reliable, efficient, and eco-friendly standby power for **emergency backup**.

The CAT E0 Series, featuring an **advanced canopy**, is designed for prime and continuous power applications, making it ideal for the **UK & European** markets.

CAT GC SERIES

The Caterpillar GC Series, ranging from **33kVA to 715kVA**, provides reliable, efficient, and eco-friendly standby power.

Powered by reliable Caterpillar diesel engines.

Fully bunded base fuel tanks with an 8-hour running time.

Fitted with a battery charger and coolant heater.

Built to CAT's high standards, these generators are ideal for emergency backup.

CAT E0 SERIES

CAT premium generators with advanced E0 canopies, designed for **prime and continuous power** (33kVA–715kVA), **built for UK applications**.

Powered by reliable Caterpillar diesel engines.

Fully bunded base fuel tanks with an 8-hour running time.

Each generator is equipped with **essential features**, including a bunded fuel tank, jacket water heater, and battery charger.

'Target Power Generators Is An Approved Power Partner.'

Target Power Generators Ltd is the **North's leading supplier** of **Pramac Industrial** and **portable** diesel generators.

Pramac's globally manufactured range includes the robust GDW and GB-GS Series, **designed for the UK market**

GDW Series

Built for tough environments, the GDW range is ideal for **construction, agriculture**, and demanding business applications.

Diesel generators available from 20-2000kVA

Powered by robust Perkins & Volvo Diesel engines.

Ultra low noise canopies. With large base fuel tanks.

Available in open type, soundproof, or ultra-low noise options.

With reinforced structures for durability, GDW Series delivers reliable, **long-lasting performance** in critical situations.

GBW Series & Portable Generators

Stage V **portable diesel generators**, suitable for fixed or stationary use. Covering **6 kVA to 20 kVA**

Trolley kits available, easy to transport around sites

Stage V diesel engines comply with the latest emissions regulations.

Ideal for **construction sites, agriculture, industrial applications**, and small residential backup.

'Target Is A Pramac Tier 1 Diesel Generator Dealer.'

Target Power Generators has over **25 years of experience** in designing and manufacturing diesel generators.

Our range includes: **Arrow Series, Standby Pro, and Turnkey Diesel Generators.**

Arrow Series – Heavy-duty generators with long-running tanks and ultra-low noise canopies.

Standby Pro – Ideal for standby applications and industrial backup.

Turnkey Diesel Range – Fully customisable to meet specific needs.

ARROW SERIES

Powered by **Cummins engines** with genuine Stamford alternators, ranging from **10kVA to 500kVA.**

Built into **heavy-duty, ultra-low noise canopies** with **fully bunded long-run bases**, ideal for industrial and commercial applications.

STANDBY PRO RANGE

Built for industrial backup, **manufactured in the UK** using **Perkins** and **Baudouin** engines, with a range of 20-1000kVA.

Produced using the **DSE7320** module, **Stamford** alternators, coolant heater, and **4-pole breakers.**

TURNKEY DIESEL RANGE

Fully customisable Diesel generators ranging from 20kVA to 3000kVA.

Manufactured to meet UK and EU regulations.

Road-towable diesel generators.

Ultra-silent, noise-reducing canopies.

Power options range from 20kVA to 3000kVA, with strong stock levels between 20kVA and 500kVA in both single and three-phase.
